

**The Kentucky Center Governor's School for the Arts
Parent/Guardian Permission for Athletic Training Services**

The Kentucky Center Governor's School for the Arts (GSA) offers the services of athletic trainers to address Dance and Musical Theatre student needs and wellness during the three-week summer program, as needed or requested, for each student.

The trainers respond to student injury, assess the injury and then provide treatment/care or refer the active person to other medical services. The trainers provide physical therapy exercises, if appropriate, for physical discomfort. The student will be accompanied by an RA (Residential Advisor) or DA (Discipline Assistant) for the assessment and/or therapy.

This service is in addition to GSA's medical procedures. In the case of a medical issue, students are taken, by an RA, to an immediate care center; in the case of an emergency, an ambulance takes the student to UK Albert B. Chandler Hospital. In any medical situation, GSA will notify the parent or guardian, as outlined in CampDoc and signed by a parent/guardian of the student.

Authorization for Athletic Training Services

This provides my permission for _____ to have access to athletic trainers, as needed or requested by my student.
